

NEBRASKA AG EXPO
DECEMBER 8-10, 2020
LANCASTER EVENT CENTER | LINCOLN, NE

Nebraska Ag Expo COVID Safety Precautions

The safety of all exhibitors, attendees, volunteers and Expo staff remains our top priority. We have been working closely with the Lancaster Event Center (LEC) and Lincoln-Lancaster County Health Department to determine all the necessary precautions we must take to have a safe and successful Expo.

These precautions are designed to not only keep everyone as safe as possible during the Expo, but to allow exhibitor participation and public attendance as well. We thank you for being in this together with us!

Here are the safety protocols planned at this time:

GENERAL

- LEC has hired additional staff to keep facilities clean and sanitized during the Expo.

ENTRANCES

- We will be adding two more entrances to help disperse attendees upon arrival.
- Face coverings and personal-sized hand sanitizer will be available at all entrances.
- Virus-inhibiting, nano material applied to all entrance and restroom door handles.

EXHIBITS

- Move-in will be spread across two days in ALL buildings.
- When possible, exhibitors will work in an 8' or 9' deep booth
- Some booths relocated to provide adequate social distancing near building entrances and major walkways (e.g. the north and south end of the Multi-Purpose Arena and P1/P2 connector).
- Running tall drapes between exhibitors 4' to 5' out from the back of the booth. (Not bulk spaces)
- Extra space will be added around traditionally congested booths such as Bomgaars/DeWalt.
- There will be no exhibitor check-in at the Expo office. Packets will be delivered directly to your booth instead.
- No personalized exhibitor name badges will be made this year to ease congestion in the Expo office. Blank name badges will be included with your exhibitor packet.
- Face coverings and social distancing are required. Producers are more likely to approach you and engage in conversation if you wear a face covering.
- Exhibitors will pre-order lunch for delivery to your booth.
- Large eating areas located in the Multi-Purpose Arena and Pavilion 3 to provide for proper social distancing
- Take advantage of "no touch" literature service where farmers can text a number posted in your booth to download literature and/or videos.
- Disinfect any shared surfaces (e.g. demo equipment, touch screens, etc.) on a regular basis.
- We will contact personnel working the booth with timely emails and/or texts.
- Utilize contactless payment methods.
- Implement a "no handshake" policy.

MISC.

- Only seminars will be conducted by the US Hemp in a large curtained area in Pavilion 3.
- LIVE Ag Tech Innovation competition will not be held this year.

Look for further updates here regarding safety protocols as we continue to monitor the state and county COVID positivity rates and make any necessary updates. In the meantime, we encourage you to take every precautionary measure possible to ensure your personal health and safety, and that of everyone around you. ***Protocols as of January 22, 2021.***
